Who can apply

Anyone with an MSc or equivalent degree in any branch of Sciences or BE/BTech or equivalent degree in any discipline or a 4-year Bachelor of Science degree.

Areas of Research

Brain Inspired Artificial Intelligence; Machine Learning; Signal Processing; Theoretical and Computational Neuroscience; Cellular, Systems and Cognitive Neuroscience; Sensory Systems: Vision, Speech; High-Level Cognitive Processes: Learning, Attention, Decision Making; Brain machine Interfaces; Neuromorphic Computation, Neuromorphic Hardware

Participating Departments

Computer Science & Automation (CSA) | Computational & Data Sciences (CDS) | Electrical Communication Engineering (ECE) | Electrical Engineering (EE) | Electronic Systems Engineering (DESE) | Centre for Neuroscience (CNS) | Molecular Biophysics Unit (MBU)
